Between brushes, glazes, and glasses of wine, this workshop transforms ceramic decoration into a creative and convivial moment to be enjoyed slowly. In a cozy studio in the heart of Milan, artisanal tradition meets a contemporary and relaxed atmosphere.

Guided by Elizabeth and her team, you will choose the piece to decorate from cups, plates, bowls, and glasses, using palettes, tools, and techniques provided in the studio. Amidst artistic advice and an aperitif to enjoy during the experience, you will create a unique piece that will then be professionally fired and ready for collection within approximately 15 days.

An authentic and relaxed way to slow down, create with your hands, and experience the most creative and convivial side of Milan.
