Behind a great Italian espresso lies a balance of precision, technique, and sensitivity. In this course by Caffè Vergnano, you will enter the world of professional extraction, discovering the gestures, care, and details that transform daily coffee into an authentic ritual.

Guided by industry professionals, you will learn about the blend, how to properly adjust grinding and extraction, and how to manage the machine and equipment like a true barista. Through practical exercises and tastings, you will discover how to obtain a balanced, consistent, and aromatic shot, developing a more conscious perspective on coffee and its processing.

A concrete and engaging experience that allows you to experience Italian coffee from a more technical, sensory, and surprisingly human perspective.
