In a Venetian goldsmith's workshop, you will enjoy an intimate experience guided by Sofia, an expert artisan, who will accompany you in creating two rings using the traditional lost-wax technique.

Starting with a wax base, you will shape the form and details with your hands, personalizing each ring with engravings, symbols, and finishes chosen from silver and brass. During the workshop, you will be guided step-by-step, allowing space for your creativity and personal interpretation.

An authentic and shared experience that transforms material, gesture, and craftsmanship into something to cherish over time.
