Milan · Lombardy

- Duration: 2 h 30 min
- Up to 8 people per booking
- Flowers and nature
- Free cancellation up to 48 hours before

An afternoon in your Botanical Clinic 🌿

Imagine spending an afternoon out of the ordinary, immersed in nature, with the scent of plants and the warmth of company. With Clinica Botanica, we offer exclusive experiences that go beyond team building or a dinner with friends, giving a unique opportunity for connection, creativity and well-being. 🌱

What will we do?

→ Discover the green world: we will explore together how to choose the right plants, learning to take care of them and understand the impact they have on the environment and on our daily lives. 🌳

→ Green techniques: through practical activities, we will teach you how to bring greenery into your spaces and transform them into places of well-being and harmony. 🌱🌾

→ Creating together: each participant will create a green project to take home, such as a floral composition or a personalized plant, getting their hands dirty and giving space to their creativity. 💚

What do you take home? Not just a plant or a unique composition, but also an experience that stimulates the connection with nature and your team. A moment of well-being that will stay with you, like a small green corner to cherish.
