

Discover the art of blown glass with a workshop in Murano

Venice · Veneto

- Duration: 2 h
- Up to 8 people per booking
- Crafts
- Free cancellation up to 24 hours before

In the heart of Murano, this blown glass experience introduces you to one of Venice's most iconic artisanal traditions. Inside the Wave glassworks, amidst fire, heat, and incandescent material, you will discover the charm of artistic glass processed using techniques passed down through generations.

Guided by expert artisans, you will learn to use the blowpipe, gather molten glass, and control the hot material through practical modeling exercises. During the workshop, you will create your own blown glass object, choosing between a glass, a bowl, or a small vase, experiencing firsthand every phase of glass transformation at over 1100°C.

An authentic and engaging experience to connect with the rhythm and precision of one of Murano's most representative arts.
